

September 13, 2010

Dear Parents and Guardians:

Welcome to the new school year. 2010-2011 should prove to be exciting. We will begin studying from the McDougal-Littell Course 1 textbooks. Our students are among the first in the country to use the new editions of this textbook series. Among the advantages of the new curriculum are the following:

- Clearer language and greater visual appeal
- Emphasis on preparation for the ACT, SAT, and MCA standardized tests
- Excellent on-line resources, including the full textbook, parent resources, verbal lessons, review materials including content based games, and the HomeTutor.
- Better alignment with the Minnesota Standards.

Instructions for accessing the online materials can be found on the reverse of this page. We strongly encourage that you investigate the many features and resources available at **classzone.com** with your son or daughter. Please sign this form and have your child return it by September 22<sup>rd</sup>.

(Over)

## Accessing **classzone.com**

- Go to [www.classzone.com](http://www.classzone.com).
- Choose math under middle school and choose Minnesota and then click
- Click on the **Course 2** book
