

# Ms. Aguilar's Class Newsletter

## November, 2009

It was great to see all of you at fall conferences! The second half of the trimester is off to a great start!! As always, feel free to call (763-315-6400) or email (aguilara@district279.org) me with any questions or concerns.

### Math

We have just begun our third unit in math, which is about decimals. We will be working on adding and subtracting decimals and whole numbers. The students will be with their current math teacher for the next two units.

### Science

The class has just completed their first science unit. We planted terrariums that contained a variety of seeds and also did experiments on the soil preference of bugs. We will now switch back to social studies and begin studying the age of exploration.

### Reading

The students continue to work with their leveled reading teacher for reading instruction. We have been working on summarizing, paraphrasing and drawing conclusions.
